

Patterns illuminated as visions re-evoked, images projected on archetypal forms, express once again the originality and the functionality of the characteristic joint system, protected by international patent for utility model, now recognized among the most interesting and "sustainable" innovations in the field of interior lighting of the last years.

Patterns enlightened as re-evoked visions, projected images on archetypal forms, show the originality and functionality of the characteristic joint system, protected by international patent for utility model, now recognized among the most interesting and "sustainable" innovations of the last years, in field of interior lighting.
